## 2009 PROGRAMS

### INDIVIDUAL SPEECH LANGUAGE THERAPY

We provide specific, individualized treatment for speech-language disorders including: receptive/expressive language delays and disorders, speech impairment and delay, auditory processing disorders, fluency disorders and voice disorders. Our California state licensed & American Speech Language and Hearing Association certified Speech and Language Pathologists work in collaboration with family members, teachers and other paraprofessionals to ensure the greatest possible progress.

AGE	RATIO	TIME	RATE
All	1:1	1 hour	\$110
All	1:1	½hour	\$55

### INDIVIDUAL HAPPY SCHOLARS TUTORING

Your child will have the opportunity to work individually, one to two hours per week, on their educational goals, with a tutor that is guided by a speech-language pathologist as needed. Kindergarten readiness, classroom collaboration and ESL students are our specialty!

AGE	RATIO	TIME	RATE
4 years and up	1:1	1 hour	\$45

### INDIVIDUAL OCCUPATIONAL THERAPY

Occupational Therapy is directed toward helping children develop the abilities necessary for the many "occupations" of childhood such as learning, self-care, play, and socialization. Individualized treatment is aimed at developing the underlying sensory and motor foundation necessary for skill development and goals are focused on the child's ability to function in the classroom, at home, and at play. Communication with family members, teachers, and paraprofessionals is emphasized for continuity with programming to facilitate progress.

AGE	RATIO	TIME	RATE
All	1:1	1 hour	\$110
All	1:1	½ hour	\$55

### Fast ForWord® "COGNITIVE SKILLS DEVELOPMENT"

This 6-8 week computer based program is led by a Speech Language Pathologist. Fast ForWord® products have been clinically proven to be an effective reading intervention strategy that accelerates the learning process. It is able to develop and strengthen the cognitive skills of memory, attention, processing and sequencing. For more information about Fast ForWord® go to [www.scilearn.com](http://www.scilearn.com)

AGE	RATIO	TIME	RATE
All	1:1	6 to 8 weeks	\$5,000

Current as of 8/27/2009

**STEPPING STONES--FUNCTIONAL LANGUAGE & ACADEMICS**

The Stepping Stones class combines an emphasis on language with the academics of our School of Imagination preschool curriculum to help your child to progress. We will have themes, circle times and centers similar to that of a regular preschool, but we will also incorporate language and oral motor centers and activities to help your child with their language development. The ratio for Stepping Stones will be slightly larger (3:1 instead of 2:1) in order to encourage more independence.

3-5	3:1	Contact us to schedule and appointment
<b>Stepping Stones is held at the School of Imagination at 6444 Sierra Court (off Dublin Blvd.) in Dublin.</b>		

**INFANT DEVELOPMENT PROGRAM--REGIONAL CENTER VENDOR**

This program is designed to ensure each child’s overall development through fun and developmentally appropriate educational activities. Each child is provided with an individual therapy plan that integrates IFSP or IEP goals as well as the goals from the other therapies (OT, PT, developmental & behavioral therapy). These goals are then implemented into their daily, theme-based schedule of circle time, social time, snack time, art, music, gross motor, sensory and fine motor center time, and phonics. Each class has eight to nine children and maintains a 2:1 student to teacher ratio. The curriculum is planned by our speech-language pathologist, occupational therapist, and preschool director and implements each child's specific developmental learning goals. Our speech-language pathologists work within the program each day and our occupational therapist attends 1-2 times per week with consultations from developmental therapists, behavioral therapists and physical therapists as needed. Parents are encouraged to attend a portion of the class each day to learn how to carry over the skills to the home setting. Verbal progress reports and suggestions are provided each day as well as monthly learning schedule and “at home tips.” Our goal is to teach your child their much needed developmental skills as well as build confidence and communication skills in a fun and nurturing environment.
